INTRODUCTION

In India around 93 percent of the workforce is deprived of the benefit of formal social security protection. However in the recent times, provisions of social security to unorganized sector workers have assumed great significance. Various efforts have been initiated by the Government of India such as designing of new social security schemes, introduction of innovative methods for identification of beneficiaries, enacting a comprehensive legislation to ensure social protection for unorganized sector workers. These measures have not succeeded in achieving the desired objective partly on account of the ignorance, illiteracy and lack of unionization of workers on the one hand and resource constraints of the state and poor implementation on the other. It is in this context the present training programme has been conceptualized for trade union leaders and government officials with an aim to create understanding of the different social security schemes and programmes, understanding the gaps in implementation and exploring ways for proper implementation of the schemes, so as to benefit the workers in the unorganized sector.
